042	Ord.no. 12437-042	£ 43.95

A Vario jet offers flexibility of adjustment from a pencil jet to a deflected standard fan spray. Being deflected, this spray isn't as 'powerful' as a flat/knife jet nozzle. Flat jet nozzles (D) offer a fixed spray jet, Kranzle Knife jet nozzles (M) offer a deeper clean with a more concise spray over the same spray area. Flat jet and Kranzle Knife jet nozzles are available to order from a narrow 0° pencil jet to a wide 40° or even 65° fan spray.
